About Propep Sciences

A Trusted Name in Research Peptides

At **Propep Sciences**, we are committed to advancing scientific discovery by providing the [highest quality research peptides in the UK](#) to scientists and innovators worldwide. With a team of experts in peptide chemistry, we support groundbreaking research with innovation, integrity, and unmatched quality.

Our Mission

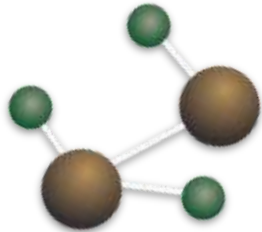

Empowering Discovery Through Science

Our mission is to empower researchers in their quest for knowledge by offering meticulously synthesized peptides and comprehensive support. We believe in driving forward innovation that benefits science, health, and humanity.

The Propep Difference

What Sets Us Apart

- Ultra-pure peptides with consistent potency
- Rigorous quality control (HPLC & Mass Spec tested)
- Expert support from real scientists
- Transparent and ethical sourcing
- Fast, secure, and discreet delivery

Product Categories

Our Core Peptide Categories

- **Growth Hormone Secretagogues** – GHRP-2, GHRP-6, Ipamorelin
- **IGF Peptides** – IGF-1 LR3, IGF-1 DES
- **Melanocortin Peptides** – Explore energy regulation, inflammation, more
- **Neurotransmitter Peptides** – Cerebrolysin, Semax, and others
- **Skin Peptides** – GHK-Cu for skin health and wound healing

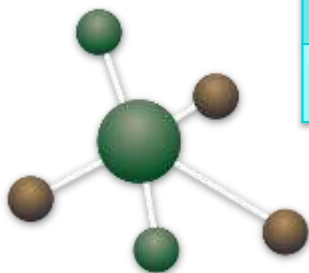

Featured Products

Popular Peptides from Our Collection

Product	Size	Price
IGF-1 LR3	1000mcg	£49.99
TB500	10mg	£59.99
HGH 191aa	10iu	£29.99
BPC-157	5000mcg	£15.99
Ipamorelin	5mg	£24.99
GHRP-6	5mg	£14.99

Quality You Can Trust

Rigorously Tested, Scientifically Validated

Every peptide is subjected to rigorous testing using advanced analytical techniques including High-Performance Liquid Chromatography (HPLC) and Mass Spectrometry. This ensures unmatched purity, potency, and reliability for your research outcomes.

Our Ethical Commitment

- Products for **research use only**
- Fully compliant with regulations
- Transparent sourcing and distribution practices
- Respect for scientific and legal guidelines
